Manipulating graphics. ICT Project
Integrating aspects of ICT into a project.

RE

Comparing religious buildings and identifying common uses.
People of faith.

Music

Singing Workshop
Music for carnival.

**Year 5 – Summer
Term 2010**

Five a day!

P.E.

Athletics – javelin, sprinting, jumping, hurdles, discus
Kwik Cricket,
Outdoor activities

Science

Earth, Sun and Moon with a brief visit to the Planets.

Keeping Healthy – food groups and choices, keeping active and looking after our bodies.

Design Technology

Making CAM toys – including visiting the Leigh Technology Academy to use their facilities. (Dates to be confirmed)
Investigating and making Pizzas

Numeracy

Calculating with time and reading timetables (24 hour clock).
Working on informal methods for division.
Relating fractions to percentages.

Visits etc Leigh Technology Academy to make CAM toys.

Visiting Christian Churches of various denominations.

Year 5 - Summer Term 2010

Ideas to work on at home.

LITERACY.

Continue to read as widely as you can, including some stories from other cultures such as Greek myths or legends or folk tales. Do you know any traditional tales that you could tell your child?

Make a collection of information leaflets.

.

NUMERACY.

Continue to thoroughly learn and practice times tables - forwards, backwards and randomly.

Encourage your child to look at time tables and TV guides to become familiar with the 24 hour clock.

GEOGRAPHY.

Do you have a holiday brochure for the Caribbean/ Jamaica to read through with your child? Or research facts about the climate and landscape of Jamaica on the internet/ in books?

Research mountains, mountain life, culture, nature, and environments like the Alps, the Himalayas, the Rockies, and the Andes.

DESIGN TECHNOLOGY

Save a strong cardboard box to make a cardboard CAM toy. Have a go at making toys that move at home. Please help your child to decide and provide ingredients for bread and pizza cooking lessons.
